# Tobías Coria

*Software Developer*

Rosario, Santa Fe, Argentina | tobicoria09@gmail.com

linkedin.com/in/tobias-coria/ | github.com/TobiasCoria

**PROFILE**

Software developer with experience in web solutions, Odoo and business analysis. My work includes development and maintenance, client communication and delivery validation. Information Systems Engineering student interested in project-based external collaboration.

**EXPERIENCE**

**HitoFusion | Odoo Developer / Business Analyst | May 2026 - Present**

- Develop and maintain Odoo features and modules.
- Gather client requirements, analyze problems and help define solutions.
- Participate in progress meetings, validate features and coordinate adjustments with clients and teams.

**Freelance | Web Development & Project Coordination | 2023 - Present**

- Deliver custom web solutions, from requirements gathering to development and deployment.
- Define features and priorities with clients; prepare technical proposals and track deliveries.
- Collaborate with external professionals and teams on digital projects.

**Overclock | Technical Support | 2023 - 2025**

- Diagnosed hardware and software issues; configured equipment, operating systems and networks.
- Provided client support and documented incidents through resolution.

**PROJECTS**

Facility Management, pediatric portal, gym management system and Izipark (ongoing): frontend, backend and database development.

**SKILLS**

Odoo, JavaScript, React Native, SQL. Additional listed technologies: Python, C#, C++, TypeScript, .NET / ASP.NET Core, React, Node.js, SQL Server, MySQL, PostgreSQL, REST APIs and Git/GitHub.

**EDUCATION AND LANGUAGES**

Information Systems Engineering | UTN, Rosario Regional Faculty | 2023 - Present
Spanish: native. English: intermediate (self-reported B1/B2); available for meetings in English.
